Overview

The mission of Rosedale Development Association (RDA) is to work in partnership with residents, businesses, and institutions to build a strong and healthy community and to improve the quality of life for those who live, work, and play in Rosedale. On Saturday, May 6, 2017 RDA hosted our first disc golf fundraiser, the **Rosedale Disc de Triomphe**, a family-friendly tournament to support our work in the Rosedale community. Proceeds from the event will:

- Support RDA's Summer Youth Employment Program
- Provide minor home repair funding for Rosedale residents
- Support after-school programming and youth sports leagues
- Help RDA promote business development and a strong Rosedale economy
- Sustain RDA's presence as a community resource center
- and more!

Goals

1. Raise funding to support and sustain RDA's work in Rosedale
2. Engage Rosedale / local businesses in the tournament
 - a. Use this opportunity to discuss with local businesses the services RDA provides
 - b. Promote the businesses and partners already working with and supporting RDA
3. Improve neighborhood engagement and perception of park safety through community events and activities in parks (Health Strategy B, Goal 2 in RDA's 2017 adopted goals)
4. Highlight one of Rosedale's gems, the Rosedale Park Disc Golf Course, and bring others from the Kansas City region into the work we do in Rosedale.

Highlights

Nearly 100 individuals joined us in the park, including players, spectators, and volunteers. 34 teams competed for nearly \$3,000 in prizes.

Local professional disc golf player **Chris Clemons** hosted a disc golf clinic before the tournament for those wishing to learn more about the sport or fine-tune their skills.

The tournament provided a fun atmosphere and friendly competition so that players of all skill sets and ages felt welcome.

Dynamic Discs sponsored players packs for all participants that included a disc golf bag, three discs, an RDA water bottle, and goodies from event sponsors.

Prizes were given away to the top four teams in each of the four flights, as well as to the "Best Last Place" team in each flight.

Of those who responded to a post-event survey, all indicated an average 9.25 (out of 10) overall experience with the tournament.

RDA plans to host the tournament annually on the first Saturday in May, with tentative plans already in the works for **May 5, 2018**.
